

MIZANMART — REDESIGN REPORT

Amazon & AliExpress Level Marketplace Transformation

BUILD STATUS: PASS (Next.js 16.3.8 App Router / React 19)

Date: October 7, 2026 | Git Range: c10ccd1 -> aa1dd82 | Stack: Next.js + Tailwind v4 + Supabase

1. Executive Summary

MizanMart has been systematically transformed from a boutique-minimal storefront into a high-density, deal-centric e-commerce marketplace modeled after Amazon, AliExpress, and Daraz. The redesign achieves maximum visual density, prominent discounts, interactive mega-navigation, sticky conversion panels, and robust micro-interactions while strictly respecting all core constraints: zero database schema changes, untouched design CSS variables, preserved authentication/checkout flows, and full Bengali localization.

2. Project Metrics & Scope Overview

Completed Phases:	Phases 1 through 7 (100% Completed)
Production Build:	Pass (0 Errors, 20 Static Routes Prerendered)
Core Design Tokens:	--color-primary (#D92D3F / #991B1B) Preserved
Localization:	Bengali + English Bilingual Marketplace
Git Commits Created:	5 Logical Commits with "Design: <area>" syntax

3. Component Inventory (Modified & Created)

Component / File	Transformation Details	Status
Navbar.tsx	Amazon 3-col mega dropdown, 150ms hover delay, mobile drawer	Redesigned
Hero.tsx	Auto-carousel (5s), arrows, dots, trust signals	Redesigned
FlashDealsSection.tsx	24h live countdown timer + horizontal snap product scroll	NEW
CategoryStrip.tsx	Horizontal icon badges with color themes	NEW
RecentlyViewed.tsx	LocalStorage tracker + horizontal carousel	NEW
ProductCard.tsx	Dense 5-per-row grid, ratings, sold count, hover add-to-cart	Upgraded
BuyBox.tsx	Amazon sticky Buy Box with delivery dates & instant CTA	NEW
MobileBottomNav.tsx	5-item mobile navigation bar with touch targets >= 44px	Upgraded

4. Phase-by-Phase Breakdown

- Phase 1: Homepage Transformation**

Delivered 3-column Mega Menu, 5s auto Hero Carousel, 3-tile promo banner, circular category icon strip, Flash Deals with real-time countdown timer, dense 5-per-row showcase grids, and 6-icon Trust Strip.
- Phase 2: Product Catalog (/products)**

Expanded sticky facets filter sidebar (multi-categories, min/max price with slider chips, star rating thresholds, in-stock & discount filters), active filter badges, and numbered pagination.
- Phase 3: Product Detail Page (/product/[slug])**

Amazon-style 3-column desktop layout (Gallery with hover zoom, Center specifications/bullet points, and Right sticky Buy Box with live delivery calculations and return guarantees).
- Phase 4: Cart & Checkout**

2-column cart with Free Shipping progress bar meter, "Save for later", inline coupon validation, and 4-step visual checkout progress stepper.
- Phase 5, 6, 7: Admin Panel, Micro-interactions & Mobile**

Admin sidebar with tight alignment & live status indicator, button/card lift animations, modal transitions, and 5-item mobile bottom navigation.

5. RESUME_FROM_HERE (Critical Handoff Section)

- Handoff Status:**

 - Completed Phases: Phase 1, Phase 2, Phase 3, Phase 4, Phase 5, Phase 6, Phase 7
 - Pending Phases: None (All planned phases are complete and verified with npm run build)
 - Exact Next Step: Run end-to-end browser check with live user traffic / staging database
 - Blockers: None identified. All TypeScript checks pass.

6. Git Commit Log Range

- c10ccd1 (origin/main) Phase 10B.8: Admin reviews moderation + fixes

c3f3475 Design: homepage – Amazon-style mega menu, hero carousel, flash deals

4db5d54 Design: catalog – dense 5-column product cards, expanded facet filters

89d10bb Design: pdp – Amazon-style 3-column layout with vertical gallery zoom

5e655ff Design: cart & checkout – 2-column cart with free shipping meter

aa1dd82 Design: admin & mobile – dense admin navigation with live status
